

# SUMMER MATH PACKET

for

Students entering the \_\_\_\_\_ grade

Student's Name: \_\_\_\_\_

Teacher's Name: \_\_\_\_\_

Parent's signature: \_\_\_\_\_

*(Your Signature Confirms Your Child's Completion of this Math Packet. Thank you) :-)*

Welcome to the North Providence Summer Math packet for students. Activities may be done independently or with a parent, guardian, or older brother or sister. Talking about the problem can be an important part of completing some activities.

**Directions:**

**Choose at least 10 activities** from the Choice Board and **record your responses on the sheets** provided. Please enter the number for each problem on the recording sheet and also make sure you show work.

To help you succeed with this work, follow these few easy steps.

- 1) Set goals for completing the activities. Decide how many you will complete each week.
- 2) Ask for help from your parents or siblings or other family members.
- 3) Try different strategies for difficult problems.

Here you will find the website(s) you may need for some of the problems. You can also go to any of these and also practice your math skills!
