**Summer 2020 Algebra 1 Enriched Packet  
(for students entering Algebra 1 Enriched in the Fall)**

The goal of summer math is to ensure that students are prepared for their high school math classes. The skills learned in elementary and middle schools are an integral part of success at the high school level, and this packet covers many of the important concepts that students entering high school should have mastered.

All students entering **Algebra 1 Enriched** as a freshman must complete this math packet over the summer. It is due **September 4, 2020**. Students who submit their packets on the first day of school will earn extra credit. Algebra 1 Enriched Summer Packets **will not be accepted after September 4, 2020**.

You will receive a grade for this summer packet based on the grade from Deltamath. Be sure to **show all work** while completing the problems. You will need to submit all your work (either in a folder or notebook to your teacher by September 4, 2020). Additionally, all students will be taking a pretest within the first days of school on the information covered in this math packet determined by your teacher.

In your Algebra 1 Enriched class, you will be using a calculator often. Therefore, students are encouraged to buy their own **SCIENTIFIC CALCULATOR (not a graphing calculator)**. Students are more efficient using a calculator with which they are familiar with.

**Instructions to access summer assignment:**

1. **Log onto [deltamath.com](http://deltamath.com)**
2. **Click in the upper right hand corner on "Create Account" for Student**
3. **Use teacher code 254016**
4. **Add your class from the drop down menu - Algebra 1 Enriched**
5. **Create account with your name and email**
6. **Once the account is created, you will see assignments that need to be completed.**

For more practice on these skills, use the following internet sources:
