

URI Concurrent Enrollment Students Parental/Guardian Technology sign off Agreement

Student name PRINT: _____

I (Parent/Guardian) PRINT: _____

Understand that my child is participating in a URI Concurrent Enrollment Program at the North Providence High School. In order to participate in this program, the child must log off of their NPSD school account and log in using their issued URI account on their district owned Chromebook. In doing so, I understand that while logged out of their NPSD account, my child will not have any content filtering rules, or internet blocking policy set forth by the North Providence School District. They will however have filtering rules that are set by URI for college students that is unknown to our district.

I also understand that device history and backup will not be in place or available at the time they are logged into their URI account.

I understand that the North Providence School District will not be able to restrict access to sites, or type of sites and will not receive any alerts of self-harm or disturbing key words typed by my child when logged out of the NPSD account.

I agree to allow my child the ability to log out of their NPSD account and into the URI account on their school issued Chromebook device.

Parent/Guardian (SIGN): _____

This form shall be put in students file located in high school.
