Students: Arthur Tseytlin, Naeelah Desanges, Jeevika Thazhaiselvam, Brooklyn Borden, Juliana Lapierre, M. Witt

Parents: Kristine Pontarelli, Sherri Bonaminio

Agenda

Data

- C. Bozigian and M. Branco delivered a presentation on school data (State Testing Data and AP data).
- Some important information to note is that for our Report Card, we can only be as high as our lowest category, which is why we have a two despite having fours and fives in some categories.
- The DiplomaPlus criteria was an added criterion.
 - Our CTE graduates will help with this criterion.
 - We will also be looking into implementing NOCTI for additional certifications.
 - EVERFI is $\frac{1}{3}$ of a credential.
 - We are also attempting to move the EMT certification exam up before graduation.
- The district can't be any higher than our lowest-performing school which means our report card score impacts the district's score.
- We are trying to offer more AP courses.
- PSAT, SAT, NextGen Science, we had a strong participation rate
 - SAT (NPHS, ERW 487; State 480) (NPHS, Math 460; State 530)

- NPHS is ahead of the benchmark by 7 points in ELA, NPHS is ahead of the Stee by 14 points in math)
- For PSAT, English is one point below the state benchmark; math is above the state benchmark
- COVID impacted scores due to learning loss
- Our goal is to improve 3-5%
- Both ELA and Math have implemented action plans and we will continue to revisit how we can grow.
- We are hopeful that having no masks and more social interactions will help boost scores and make up for the crucial years of learning that our students lost due to COVID

NEASC Update*

We had a successful Collaborative Conference where we received accolades including:

- Our school has a warm inviting feeling where it feels like home
- There is a great culture in the building
- It is a safe and secure building
- We have a robust CTE program

*A more detailed report will be forthcoming.
