

LEARNING MANAGEMENT SYSTEM

ADDENDUM #2

APRIL 2, 2025

1. Who is NPSD's current LMS vendor?
360Learn
2. How long has NPSD used their LMS vendor?
About 2 Years
3. Why is NPSD considering moving away from their LMS vendor?
Contract ends
4. What is the value of the current contract with NPSD's LMS vendor?
About \$16,400.00 per year for 500 users (staff only)
5. With reference to "Can create groups of classes that can be presented as a course:" can NPSD provide more clarity on this question? Does NPSD want the LMS to allow administrators or instructors to bundle multiple classes (or modules) together to form a single course?
Yes, and be able to track "blended programs" as a whole. Blended programs can contain physical classroom attendance as well as groups of e-learning courses.
6. Our solution is priced per student, not per employee as the pricing attachment requests. Could you provide applicable student tiers for us to price our solution on?
We are not looking for a system for students, so such pricing would not be considered. We are looking for pricing for up to 500 staff.
