Former Whelan Elementary School

New Whelan Elementary School

New Whelan Elementary School

57 Miles of Electrical Wiring

Ventilation Equipment can move an Olympic Size swimming pools' volume of air in under 10 minutes

Stacked vertically, these bricks would tower over 30,000 feet into the sky – higher than Mount Everest

Former Greystone Elementary School

New Woodhaven Elementary School

New Woodhaven Elementary School

The amount of steel equals
350 Million Paper Clips

Over 2,000 different individuals
participated in construction

If you arranged all the drywall used
on top of one another – it would be
taller than a 20 story building

District Office & Athletic Support Facilities

New District Office & Athletic Support Facilities

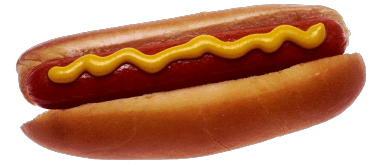

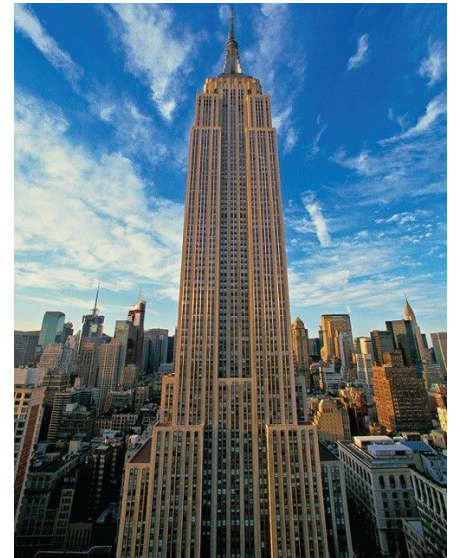

New District Office & Athletic Support Facilities

1,000 hot dogs lined up end to end
would stretch farther than a football field

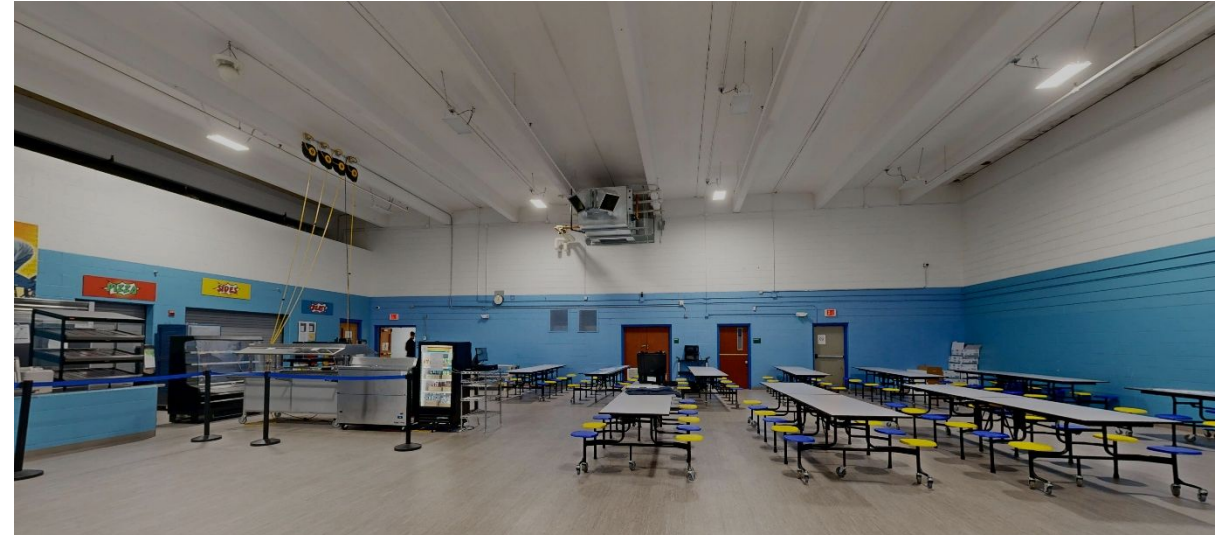

It would have taken one worker 40 years
to build this building by themselves

If stacked, the \$1 bills spent on this
project would rise higher than the
Empire State Building

Former Cafeterias & Gymnasiums

Birchwood & Ricci Middle Schools

Renovated Cafeterias & Gymnasiums

Birchwood & Ricci Middle Schools

Renovated Cafeterias & Gymnasiums

Birchwood & Ricci Middle Schools

Cafeterias Are Designed to Absorb Up to **95%** of the Sound That Hits Their Acoustical Panels

The Cafeteria ceiling can reflect approximately **82%** of the light striking its surface

Former Media Center, Gym, Kitchen & Cafeteria NPHS

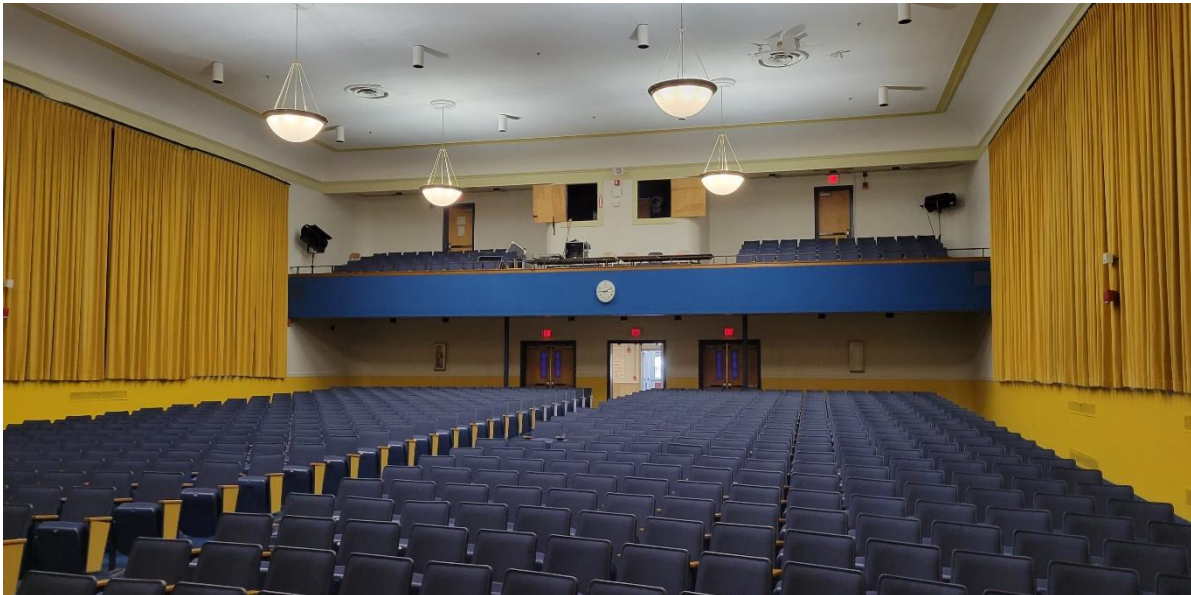

Renovated Media Center, Gymnasium, Kitchen & Cafeteria @ NPHS
